

SHIVAM GUPTA

Full Stack Developer — Next.js · React · Redux · Strapi · Node.js

Mumbai, India • +91-9326257600 • theshivamgupta.dev@gmail.com • Portfolio: the-shivam-gupta.github.io • LinkedIn: linkedin.com/in/the-shivam-gupta

SUMMARY

Full Stack Developer with hands-on production experience across Next.js, React, and headless CMS (Strapi) architectures. Delivers accessible, animated UI components and Figma-to-production features on live client platforms, backed by 1.5+ years of open-source contribution across accessibility and performance-focused codebases. Strong CS fundamentals from focused GATE-level preparation in DSA, OS, DBMS, and Computer Networks.

EXPERIENCE

Full Stack Developer | Pixtop Media Solutions Pvt Ltd (Webmaffia)

Feb 2026 – Present • Mumbai, India

- Built and maintain a large-scale investor relations web portal with CMS-driven content, multi-tab layouts, and in-browser PDF rendering, used by external stakeholders for regulatory disclosures.
- Engineered reusable, animated UI components (GSAP/Framer Motion) adopted across multiple product modules, ensuring consistent behavior across desktop and mobile breakpoints.
- Set up a Strapi CMS backed by MySQL from scratch, defining content types, relations, and REST APIs that content teams use to manage data without engineering support.
- Owned features end-to-end from Figma design handoff through production deployment across multiple release cycles, coordinating directly with design and QA.

Technical Prep (GATE — Computer Science) | Self-Directed

Jan 2025 – Feb 2026 • Mumbai, India

- Completed intensive, self-directed study of core Computer Science fundamentals — Data Structures & Algorithms, Operating Systems, DBMS, and Computer Networks — strengthening problem-solving and system-design foundations applied directly in current engineering work.

Open Source Contributor | Community Contributions

Aug 2023 – Jan 2025 • Remote

- LinksHub: Improved accessibility to WCAG 2.1 standards and resolved 10+ UI bugs during Hacktoberfest 2023.
- AI-Fusion: Enhanced UI/UX using TypeScript and optimized dark mode; implemented card sorting that improved navigation speed by 25%.
- Namespace: Improved responsiveness and fixed navigation issues, enhancing the mobile experience.
- React-native-authkit: Authored a comprehensive README for the RTK Query Auth Template, boosting developer onboarding speed.

PROJECTS

- ShopVerse** — Implemented authentication (email/password + Google) with real-time Firestore sync; built wallet, rewards, and orders modules that boosted user retention by 15%. Reduced LCP from 3.8s to 2.1s through Core Web Vitals optimization.
- MedGuide** — Adapted an ML-powered diagnostic tool into a clinician-friendly Flask interface with real-time symptom input, improving diagnostic accuracy by 20%.
- LabourServices** — Built a job-matching app (Ionic + React) connecting 50+ workers with customers, with real-time feedback and ratings to maintain service quality.

SKILLS

- Frontend: **Next.js, React.js, Redux Toolkit, Tailwind CSS, HTML5, CSS3**
- Backend: **Strapi, Node.js, RESTful APIs, Firebase (Auth, Firestore, Storage)**
- State Management: **Redux, Redux Toolkit, Context API**
- Animation: **GSAP, Framer Motion**
- Languages: **JavaScript (ES6+), Python**
- Tools & Practices: **Git, GitHub, GitHub Actions, Figma, CI/CD, Accessibility (WCAG 2.1), Core Web Vitals, Performance Optimization**

EDUCATION

B.E. Computer Science — Atharva College of Engineering, Mumbai

Jan 2021 – May 2024 • GPA: 9.06 / 10

ACHIEVEMENTS & CONTRIBUTIONS

- Best Project of the Session — MedGuide, awarded at Projectathon 2.0 (National-Level Competition).
- Published research: AI-Driven Healthcare Application at ICSTEMSD 2024 — symptom analysis and medication engine with vital-sign-based dietary recommendations.
- Coordinated participants and event operations for 100+ attendees as a Projectathon Volunteer.
